SUITABLE FOR: ✓ Automotive ✓ Mechanics ✓ Engineers ✓ Agriculture ✓ Assembly ✓ General Use

100% NITRILE • CHEMICAL RESISTANT • AMBIDEXTROUS • LEVEL 5 DEXTERITY • LATEX FREE • POWDER FREE

SIX UNIQUE FEATURES THAT HIGHLIGHT WHY GRIPPAZ GLOVES ARE DIFFERENT TO ANY OTHER GLOVES IN THEIR FIELD

① AMBIDEXTROUS

The gloves are not hand specific, so you don't have to split a pair to replace a damaged glove.

② TRACTION GRIP

Ergonomically designed. Not only for wet grip on the outside, but also to reduce hand slippage on the inside.

③ SUPERIOR NITRILE

Grippaz gloves are 100% nitrile. No issues with latex protein allergy and better chemical and puncture resistance than latex.

④ CUFF

This is not a typical household glove shape. The cuff is beaded and designed so it doesn't flop down in use and can easily be worn under oversleeves and over liners.

⑤ EXCELLENT FIT

The stretch formula nitrile allows Grippaz to fit more snugly than traditional household gloves. Try them on against traditional gloves and see which you'd rather work with.

⑥ DEXTERITY

Grippaz has the maximum Dexterity level 5.
